NPIC/TSSG/RED-1977/69  
19 December 1969

MEMORANDUM FOR: Chief, Technical Services and Support Group  
SUBJECT : Color R&D Program

25X1 1. As mentioned in our past discussions, back in early Fall I initiated a study within RED to develop a color R&D program. The attached report is the result of this effort. [ ] was the director and principle designer of this study and did an outstanding job. In the endeavor, he had the full support of the rest of RED, and he effectively used the technical and program planning talents available. Inputs were also provided by IEG, APSD, and PSG as indicated in the attachment.

25X1 2. We are presently in the process of preparing a briefing covering the contents of this report. Since shortly we will be in the second half of the Fiscal Year, time is important if we are to launch an effective R&D color program in FY-70. It is essential that we get some indication of support from [ ] as far as initiating certain of the proposed R&D tasks. I recommend that you forward this report to him for his perusal. Also, that we set up a briefing for you, PPBS, and Group Chiefs shortly after the holidays. Once this coordination has been effected, we can then brief [ ] and recommend a specific R&D effort.

25X1 [ ]  
Chief,  
Research and Engineering Division

Attachment:  
Color Report

Distribution:
